PX-2535 Fan Guard for PX-2T, PX-5T, PX-6T Alternators and most Ford "Tangent Mount" 3-bolt alternator applications

Custom design by PennTex Industries.

Protects fingers, hoses, and wiring from the spinning fan blades.

Stamping is formed from 8-Gauge steel.

Gold coating matches PennTex pulleys.

If desired you could easily paint the guard to match the engine or body color.

Uses two existing mount bolts for attachment.

Twenty (20) 1/2" holes in area over fan blade.

No restriction of air for alternator cooling.

Quick installation - very little down time.

Contact our Warehouse Distributors for pricing.

Check the alternator drive belt routing to be sure that installation of a fan guard will not interfere with the drive belt.

Note: PX-2535 part number includes the fan guard only.

Mock-up of a fan guard installation viewed from the side.

Mock-up of a fan guard installation viewed from the top.

Scale: none
