

## HIGH AMPERAGE / HEAVY DUTY ALTERNATORS / CHARGING SYSTEMS

Drive End Frame

**PX-8 BCK**  
Conversion Kit  
50DN oil-cooled to PX-8 air-cooled

High Temperature  
Bearings

Rectifier End  
Frame

Fan Shroud &  
Mounting Hardware

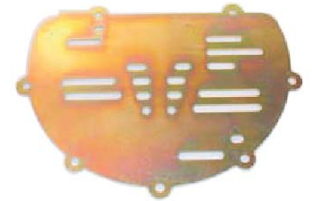

Stator Assembly  
Plugs

Oil Line Cap Kit

Outer DE Bearing  
Retainer & Mounting  
Screws

Rear Cover Plate &  
Mounting Hardware

Cooling  
Fan

Also includes a  
Insulator & Accessory Kit  
and a Hardware Kit

Rectifier Heat  
Sinks (3)

**The PX-8 BCK air-cooled conversion kit for transit buses and motorcoaches, allows the easy conversion of an oil-cooled 50DN into a PX-8 style air-cooled alternator.**

- Produces an output of more than 300 amps using standard 50DN components.
- Easy conversion from oil-cooling to air-cooling, eliminating oil leaks.
- PX-8 BCK kit assembles faster than oil-cooled 50DN: no oil seals to lubricate and install.
- High temperature bearing seals and grease.
- Designed for use with the existing OEM regulator.
- Easily serviced with industry standard components.
- Utilizes all existing hardware, electrical connections and pulley for ease of installation.
- Increased fuel economy due to decreased torque and horsepower drag on the engine.
- Upgrades belt-driven oil-cooled 50DN applications.
- Mounting compatible with standard 50DN saddle bracket configuration.

**The Air-Cooled Conversion Kit is available from the PennTex Certified Reman Distributor (CRD) listed below:**

A-1 Base  
303-287-3347  
Commerce City, CO 80022
